

# Powerful flavors from iconic regions.

## Our Story

Just a few miles west of our vineyards, the Pacific Ocean is churning out chilly breezes and cooling puffs of fog that help our fruit ripen with complex flavors. We may have mud on our boots, but our fruit thrives because of deep, blue water. And what better emblem of the California coast than the Great Whites who have thrived in the deepest regions of our oceans for nearly 500 million years. This wine celebrates them—and you.

## Wine Description

Crisp. Refreshing. Bright. Vibrant. Cali Shark opens with spot-on California Chardonnay aromas like peach, lemon, and Mandarin orange. On the palate you'll discover a brisk, layered wine that reveals more fruit and a pleasing dollop of caramel and a whisper vanilla. Pair with baked fish, summer salads, and beachside picnics.
