

PREDATOR

WINES

2017 SIX SPOT RED WINE, follows a holistic approach in winemaking. Some farmers believe that finding a ladybug with six spots signals a bountiful harvest. And, since ladybugs consume crop-damaging aphids, even the least superstitious grower welcomes them, six-spotted or not. Six Spot Red Wine is crafted from grapes grown in the renowned Lodi Appellation.

LODI, CALIFORNIA is ideally situated between the Sierra Foothills and the San Francisco Bay Delta and benefits from cool afternoon and evening breezes, producing world-renowned red varieties. The 2017 harvest allowed the fruit to ripen at a slow and steady pace resulting in fruit with exceptional concentration and balance. Our winemaking team blended a selection of Petite Sirah, Zinfandel and Malbec to craft this expressive and balanced red wine.

OUR COMMITMENT to sustainable growing practices helps ensure the health and vitality of our select vineyards. “Natural Predation” is an eco-friendly strategy to control harmful critters in the vineyards. Ladybugs, a natural insect predator, along with predator mites, feed on destructive aphids. Ladybugs would suggest pairing this Red Wine with fresh aphids or mites – but we recommend short ribs or a delicious Osso Buco.

WINE STYLE

A vibrant, sweet bouquet of raspberry jam, caramel and cinnamon toast. Excellent oak integration provides silky tannins and spice to pair with Lodi's unrestricted wild berry fruit.

BLEND

A delicious blend of 50% Petite Sirah, 28% Zinfandel and 22% Malbec

ALCOHOL

13.5%

AGING

French oak
