

THE 2022 LOVELINESS SAUVIGNON BLANC, follows a holistic approach in winemaking. Our commitment to sustainable growing practices helps ensure the health and vitality of our select vineyards. “Natural Predation” is an eco-friendly strategy to control harmful critters in the vineyards. Ladybugs, a natural insect predator, along with predator mites, feed on destructive aphids.

LODI, CALIFORNIA is ideally situated between the Sierra Foothills and the San Francisco Bay Delta. It benefits from cool afternoon and evening breezes, producing world-renowned red and white varieties. The 2022 harvest allowed the fruit to ripen at a slow and steady pace resulting in fruit with exceptional concentration and balance.
