

**2023 PREDATOR "SIX SPOT" RED BLEND:** Some farmers believe that finding a ladybug with six spots signals a bountiful harvest. And, since ladybugs consume crop-damaging aphids, even the least superstitious growers welcome them, six spots or not. Our commitment to natural predation, using ladybugs to control pests, helps ensure the health and vitality of our vineyards.

**LODI, CALIFORNIA** is situated between the Sierra Foothills and the San Francisco Bay Delta. In this under-the-radar California enclave, known for its quaint towns and community spirit, vineyards thrive in radiant afternoon sun and cool afternoon and evening breezes.

**VINTAGE:** In 2023, most vineyards and grape varieties were at least two to three weeks behind normal. In addition, the Lodi appellation saw 32 inches of rain, more than double the annual average of 14 inches. The good news is that the cooler weather resulted in wines with an excellent balance of natural acidity and more freshness. The 2023 vintage of Six Spot Red is showing more restraint, elegance, finesse, and balance.

**STYLE & PAIRINGS:** Six Spot is a vibrant bouquet of blackberry, cranberry, and cedar. Flawless oak integration leads to velvety tannins that reveal flavors of warm baking spices. Pair Six Spot with grilled pork or other lean meat dishes. Drink now through 2028.

#### BLEND

54% Petite Sirah, 25% Cabernet Sauvignon, 8% Zinfandel

#### AGING

French and American oak for 10-14 months
