

Dive into a wine with rich, complex layers.

Our Story

Just a few miles west of our vineyards, the Pacific Ocean is churning out chilly breezes and cooling puffs of fog that help our fruit ripen with complex flavors. We may have mud on our boots, but our fruit thrives because of deep, blue water. And what better emblem of the California coast than the Great Whites who have thrived in the deepest regions of our oceans for nearly 500 million years. This wine celebrates them—and you.

Wine Description

This wine embodies all of the classic flavor cues of California reds. A bright ruby hue, aromas of blackberry and cherry, and a palate that unfolds to reveal layer after layer of fresh fruit and a clean finish. Pair with pizza night, backyard barbecues, and bonfires on the beach.
